

Ingredients:

	<u>CAS No</u>	<u>Proportion</u>
Water	7732-18-5	>60 %
Anionic Surfactants	68584-22-5	<10 %
	68585-34-2	<10 %
Sequesterant	7758-29-4	
Coconut Diethanolamide	8057-30-7	<10 %
Fragrance, dye, preservative		<10 %

HEALTH HAZARD INFORMATION

Health Effects:

Acute

Swallowed:	Low systemic toxicity, likely to cause nausea, vomiting and diarrhoea.
Eye:	May be an eye irritant. May cause soreness. May cause watering of eyes.
Skin:	Practically non-harmful. Repeated or prolonged skin contact may lead to irritation. Contact with skin may result in irritation.
Inhaled:	May cause irritation to the nose and throat. Practically non-harmful by inhalation.

Chronic

None known.

First Aid

Advice	For advise, contact a Poisons Information Centre (Phone eg. Australia 13 11 26; New Zealand 03 4747 000 [Not after May 2005] or 0800 764 766 or a doctor at once).
Swallowed	Give water to drink. DO NOT induce vomiting. Seek medical advice if effects persist. Not considered a feature of normal use.
Eyes	Irrigate with copious quantity of water for 15 minutes. Seek medical assistance if symptoms persist.
Skin	Wash with plenty of soap and water. Remove contaminated clothing and wash before re-use. If irritation occurs seek medical advice.
Inhaled	Seek medical advice if effects persist. Not considered a feature of normal use.

Advice to Doctor:

Treat symptomatically.

PRECAUTIONS FOR USE

Exposure Standards:	No exposure limits proposed by National Health and Medical Research Council. TLV is the time weighted average concentration of the work atmosphere over a normal 8-hour work day and a 40-hour work week. Nearly all workers may be repeatedly exposed to this level, day after day, without adverse effect. These TLVs are issued as guidelines for good practice. All atmospheric contamination should be kept to as low a level as is practically possible. These TLVs should not be used as fine lines between safe and dangerous concentrations.
Engineering Controls:	No special ventilation required.
Personal Protection:	Avoid contact with eyes. Use gloves if prone to dermatitis.
Flammability:	Non combustible. Non flammable.

SAFE HANDLING INFORMATION

Storage and Transport:	Keep containers securely sealed and protected against physical damage. Ensure containers are clearly labelled. During hot weather vent drums at regular intervals.
Spills and Disposal:	Isolate leaking containers and stop leak if safe to do so. Slippery when spilt. Avoid accidents, clean up immediately. In the event of a small spill: Use absorbent (soil or sand, sawdust, inert material, vermiculite). Collect and seal in properly labelled drums for disposal. In event of large spill: Contain - prevent contamination of drains and waterways. Pump out to a waste/recovery tank.
Fire/Explosion Hazard:	No unusual fire or explosion hazards. Non combustible. In case of fire in the surroundings use the appropriate extinguishing method for the area. No reactivity data available. No Hazchem Code allocated.
